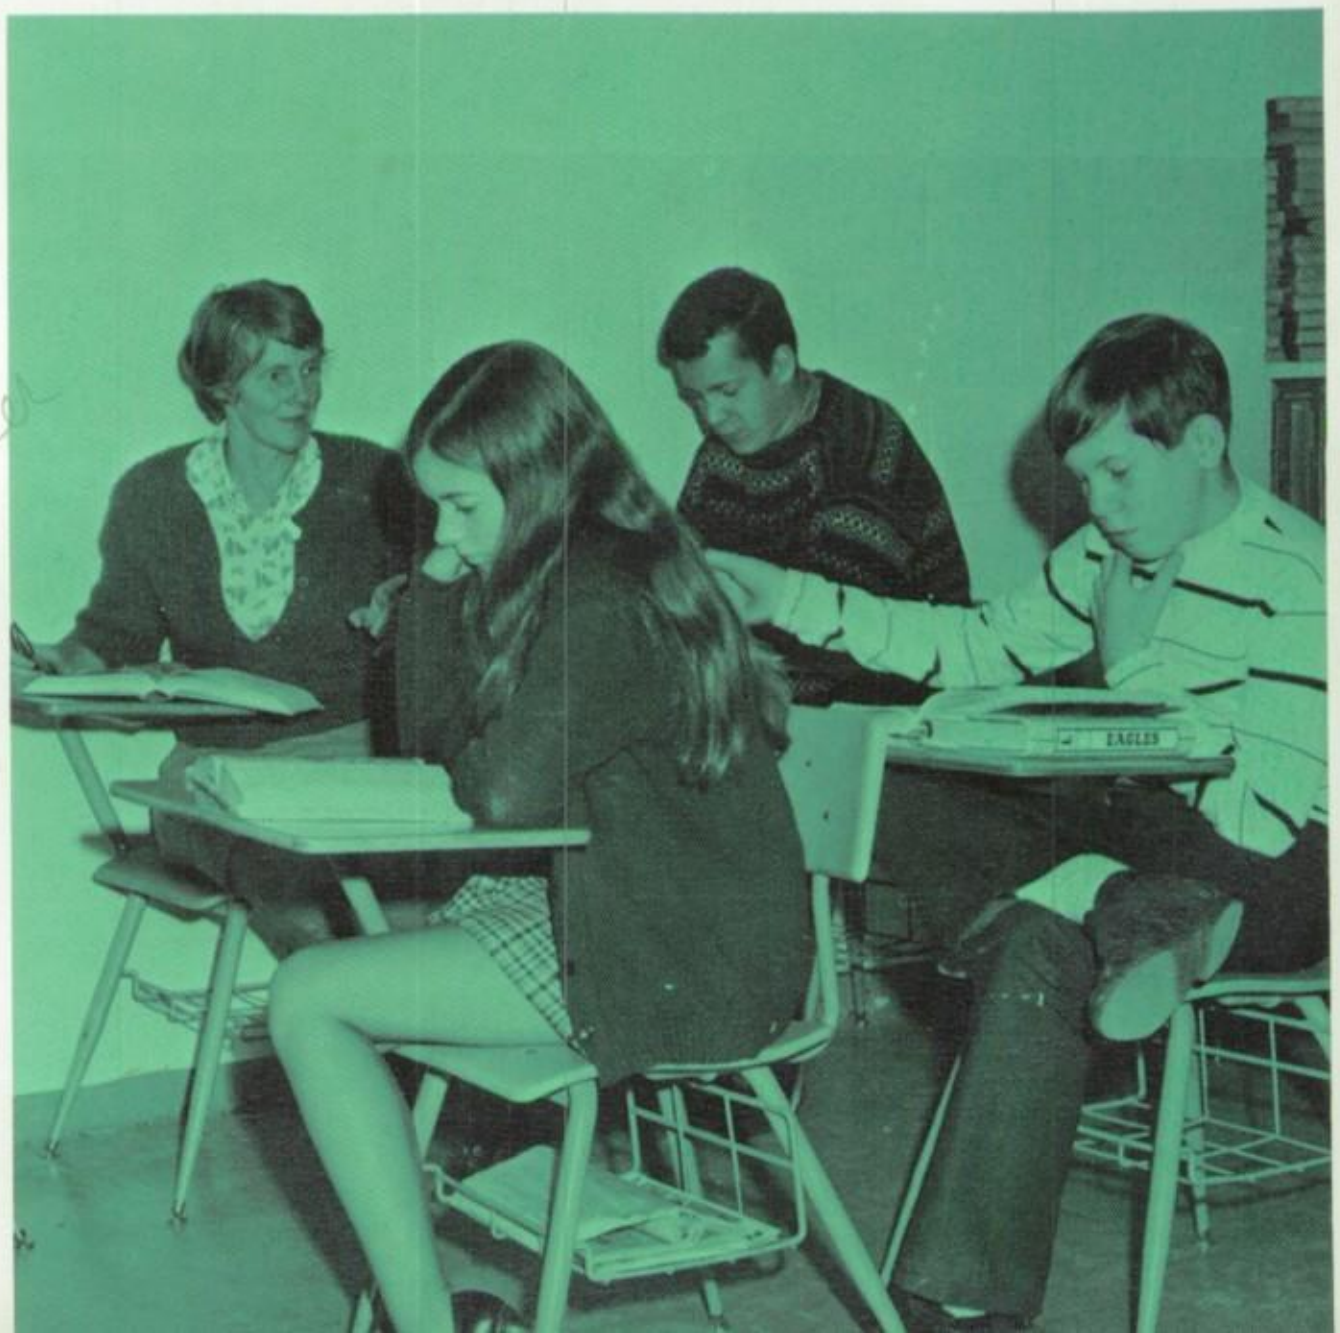
To Susie!
The brain of
the Latin class!
Keep smiling
Behave yourself and
have fun this Summer
Irene.



Dedication

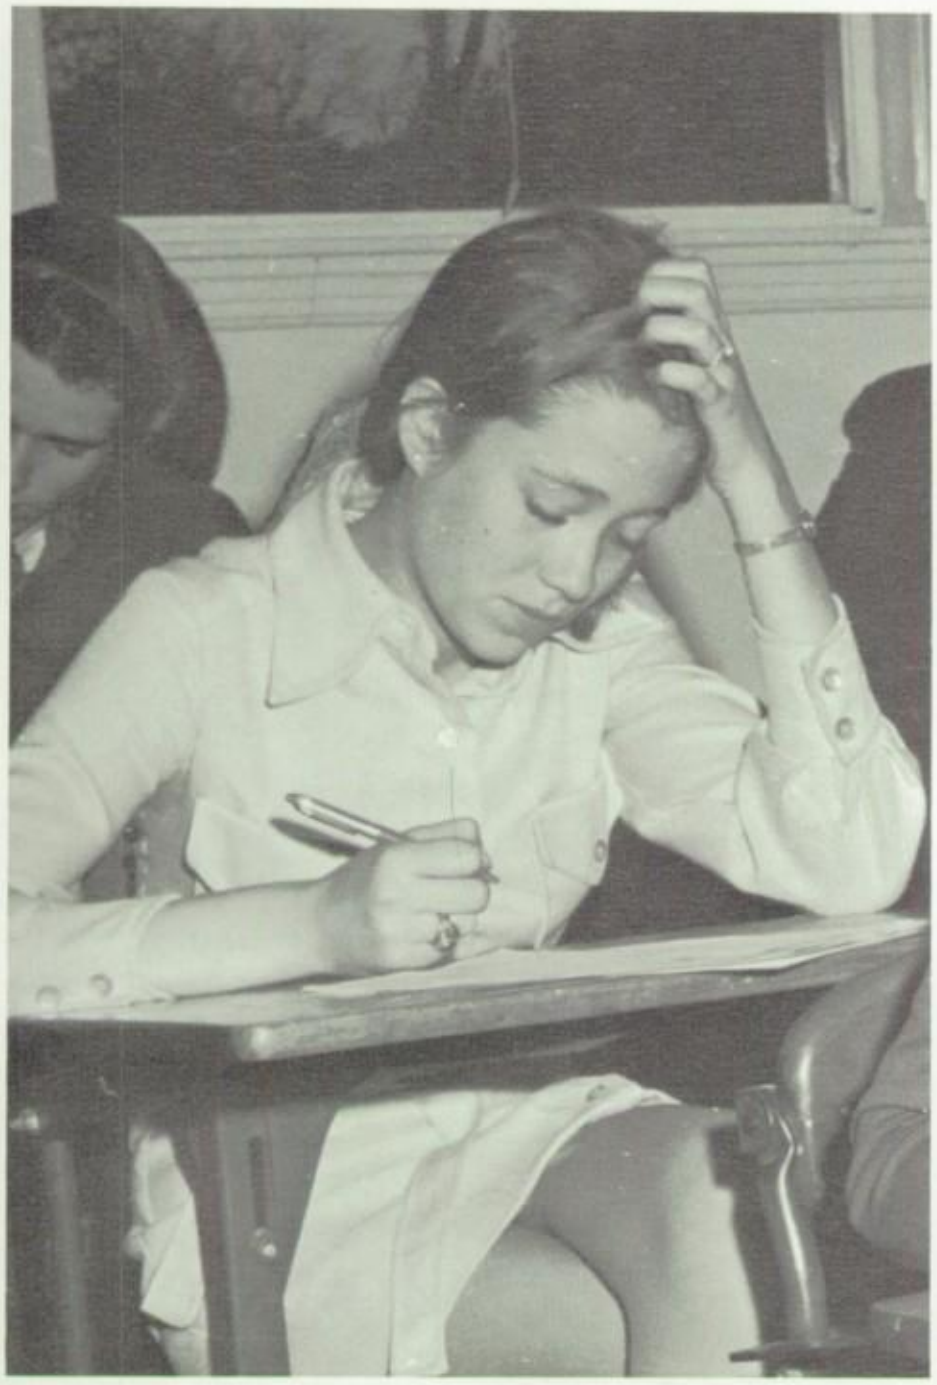
Thoughts On A Friend

To hear . . . to care . . . to understand . . .
This is more than merely to teach . . .
Mrs. Elizabeth Duckett generates this warmth
to both her English class and her field hockey team . . .
She treates each person as an individual . . .
And she's always there to listen.

Thank you, Mrs. Duckett, for just being you

Our primary interest in life is
to learn . . . so that we may know and enjoy . . .
We want to succeed and love
. . . and understand
. . . we are determined to be ourselves
. . . and be free and happy
These goals belong to all of us . . .
Through education we begin on our journey to reach them.

We participate in life . . .
We try to look around
and understand . . .
accept what is good
change what is bad . . .
answer the question . . .
but question the answer . . .
Listen to old and new ideas.
When we learn to listen
we take a giant step
toward communication. We are . . .
learning to have open minds.

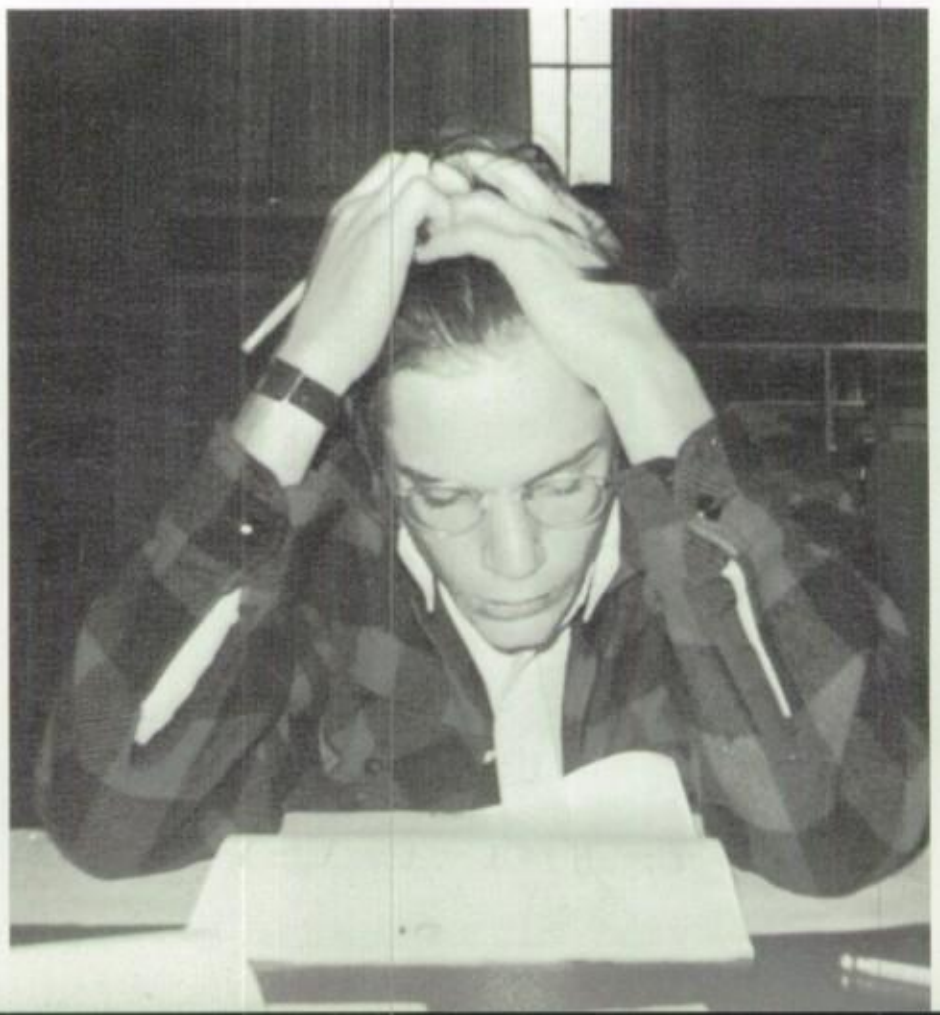


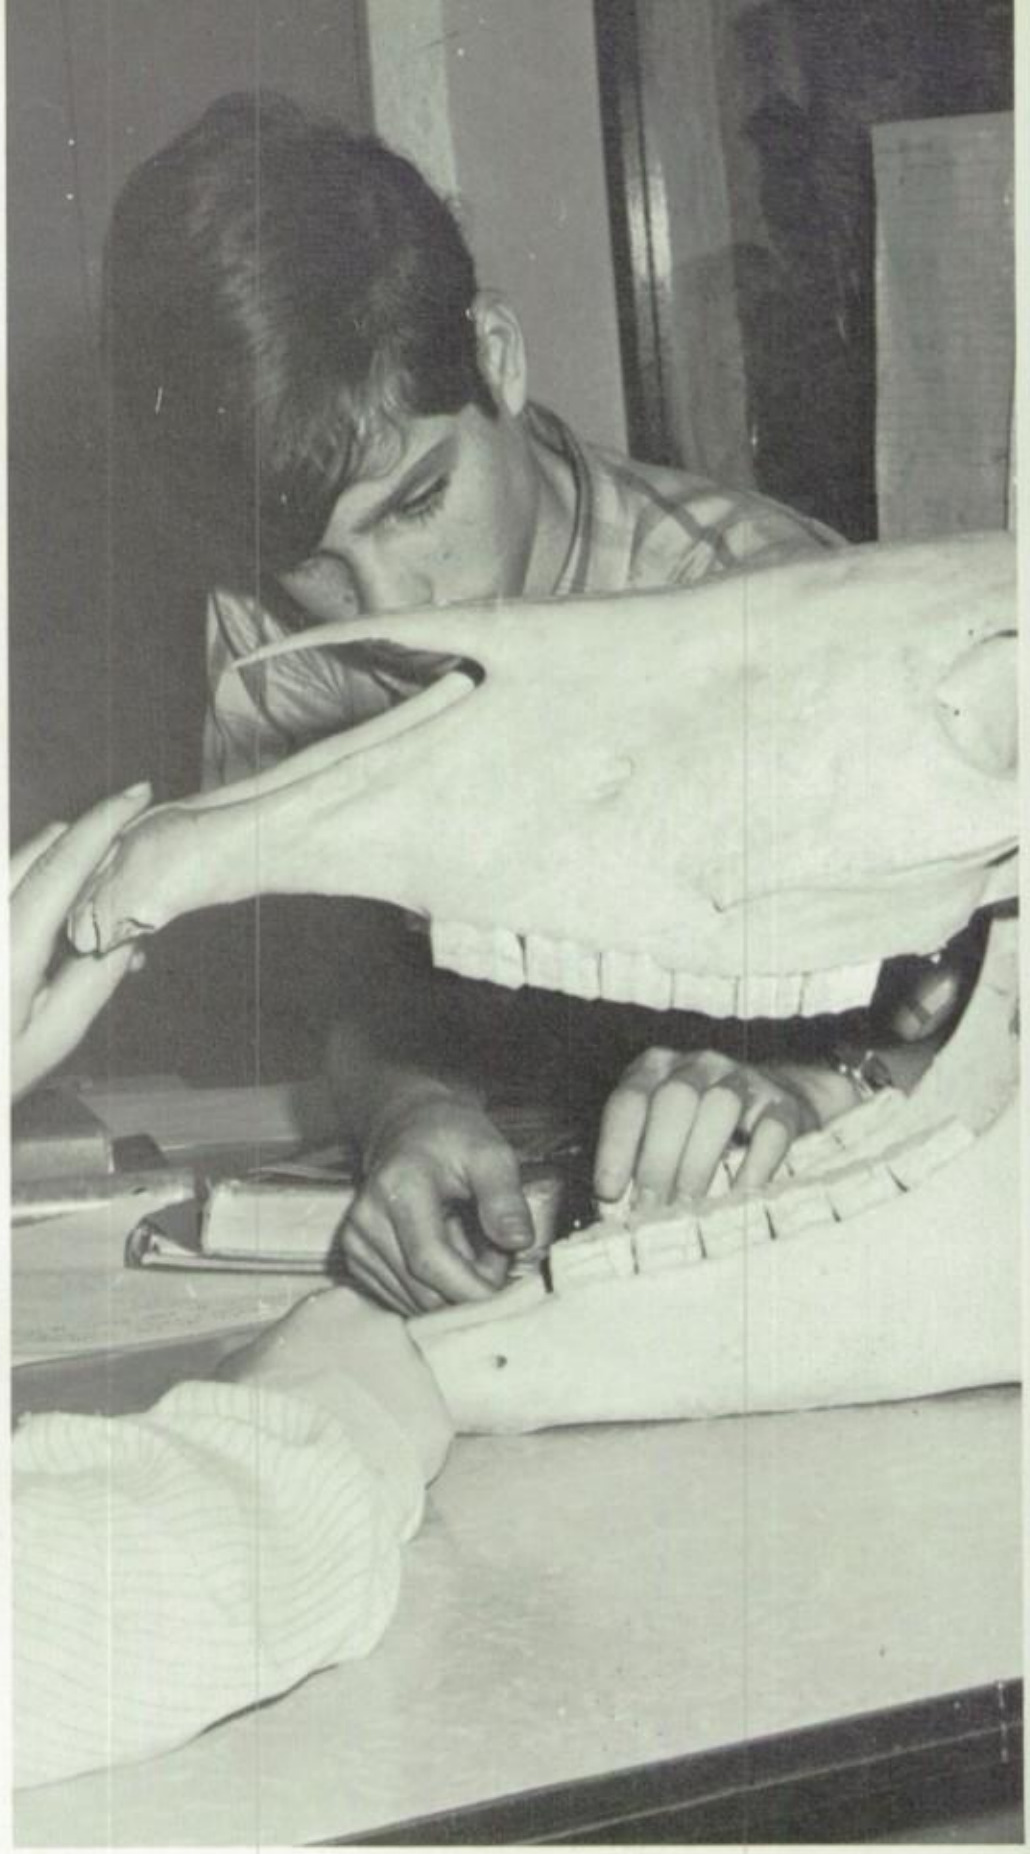
Hi Susie!
Just thinck back to last year about this time. What a mess. Wish you could sit near me and watch me cry. Don't forget to write me to your wedding.
Love ya
Debbie

LINCOLN
LINCOLN

When we observe the works of others
we find courage to attempt something
ourselves . . . A song practiced to
perfection . . . a race won by determination . . .
satisfaction achieved by study . . .
a poem written from thoughts . . .
crafts shaped by the hands . . . These
are our talents . . . as we create . . .
we learn to express ourselves.

Success is important to all.
But without failure . . . success
means nothing . . . Mistakes
and awkward situations
are good when we learn
from them . . . In this class
we give ourselves
the grade . . . as we grow we . . .
learn by what we experience.



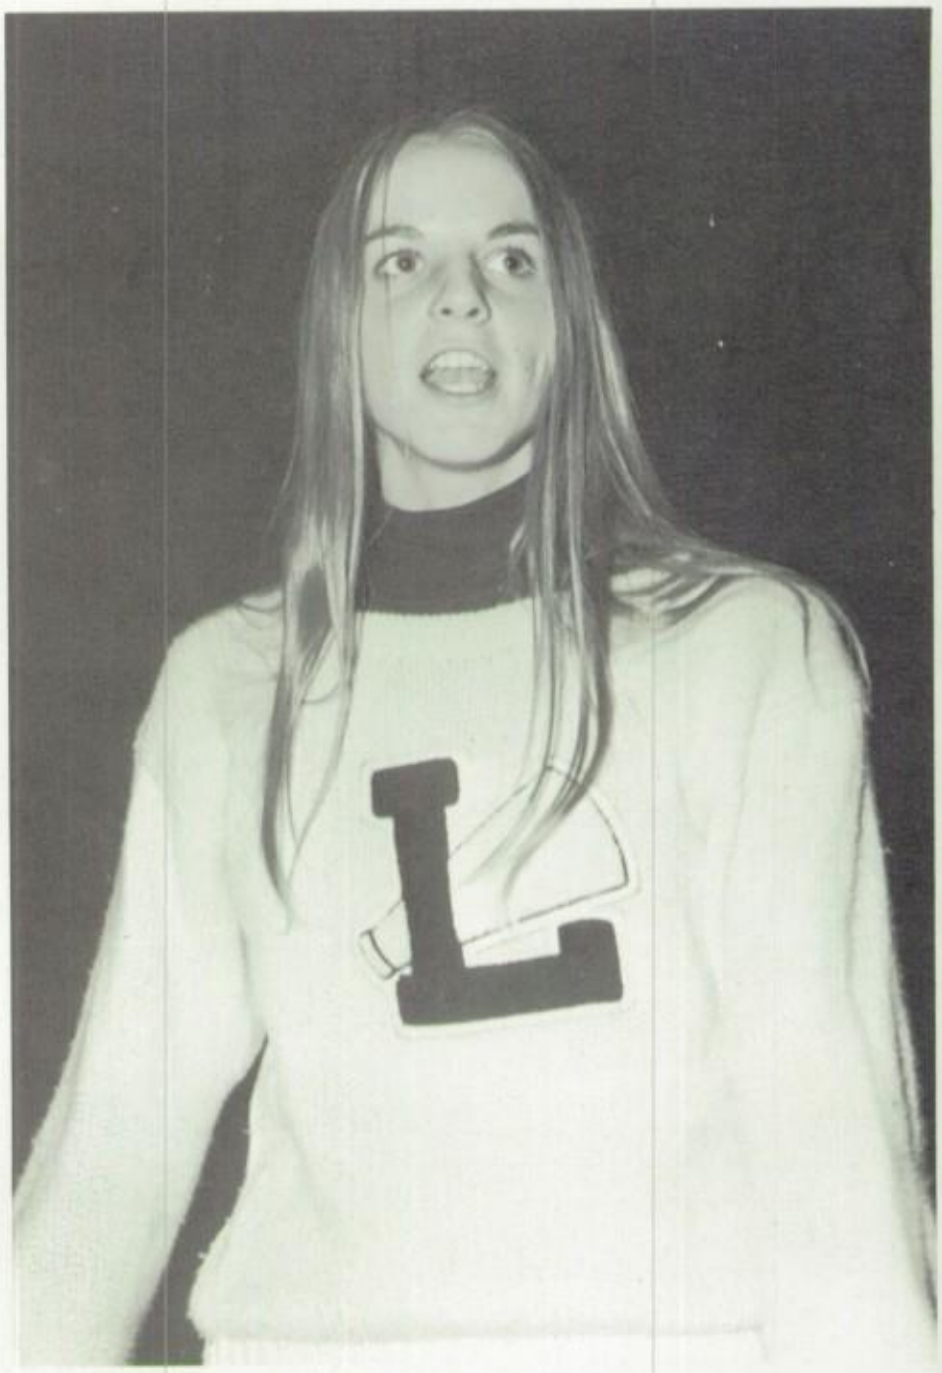


Experimenting is the basis of
knowledge . . . When we arrive at conclusions . . .
and test them for validity . . . we discover
something first-hand . . . The
next step is to seek
a discovery . . . When we seek
we learn to be aware.

Occupational Exploration Kit

We all relate to other people . . .
or want to . . . We have
confidants, friends, acquaintances,
even enemies . . . We are
sensitive to people what they think . . .
what they say . . . what they do . . .
If we want to care . . . we reach out . . . and
. . . we learn to go outside ourselves.

One of our highest goals is
to know ourselves . . . and realize
our uniqueness . . . Everyone wants to be
himself . . . and as he strives
. . . and accomplishes this . . .
he learns to recognize that . . .
everyone is an individual.



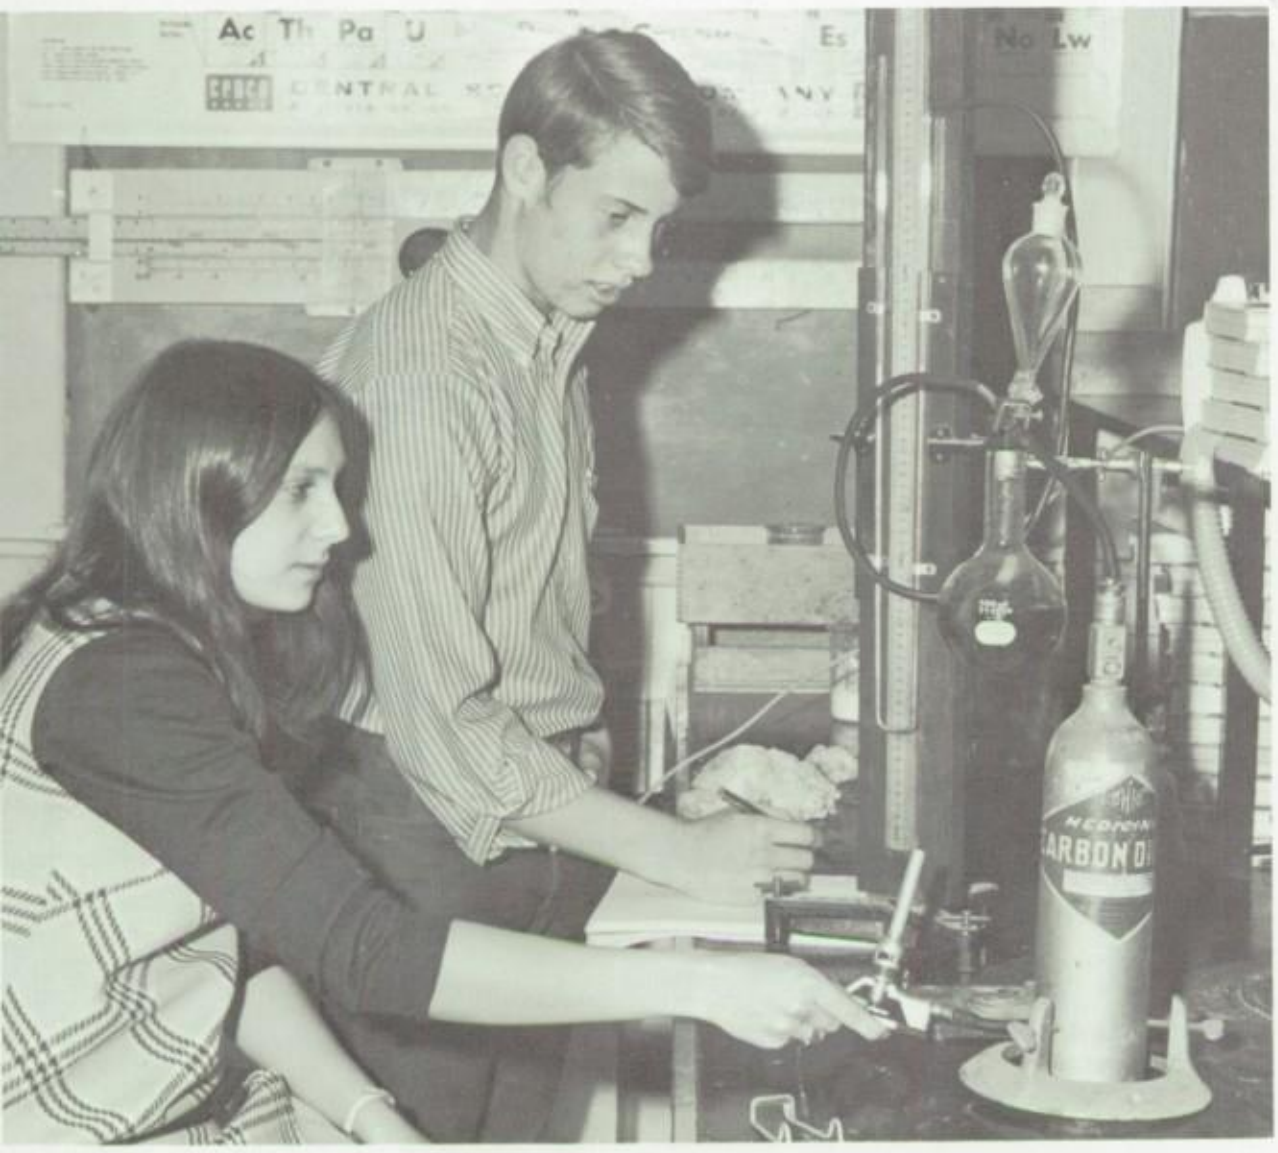
the program

Electives = Freedom Of Choice

A new idea blossoms and effects change . . .
a different pace for English classes . . . introduced
by the phase elective program . . .
creative writing, speaking, argument and debate,
literature, journalism, and many others . . .
Gone are the old standarized texts . . .
the student chooses his own
special interest and English comes alive . . .
A new course every eight weeks relieves boredom
and gives variety . . . changes effects new ideas . . .

Top: Speech class involved in a torrid discussion. **Above:** Liza Russell creates a quilt for Humanities class. **Right:** Kelly Gallant and Debbie Waltz learn the mystery of catalog cards.

Experimental Investigation Builds Understanding

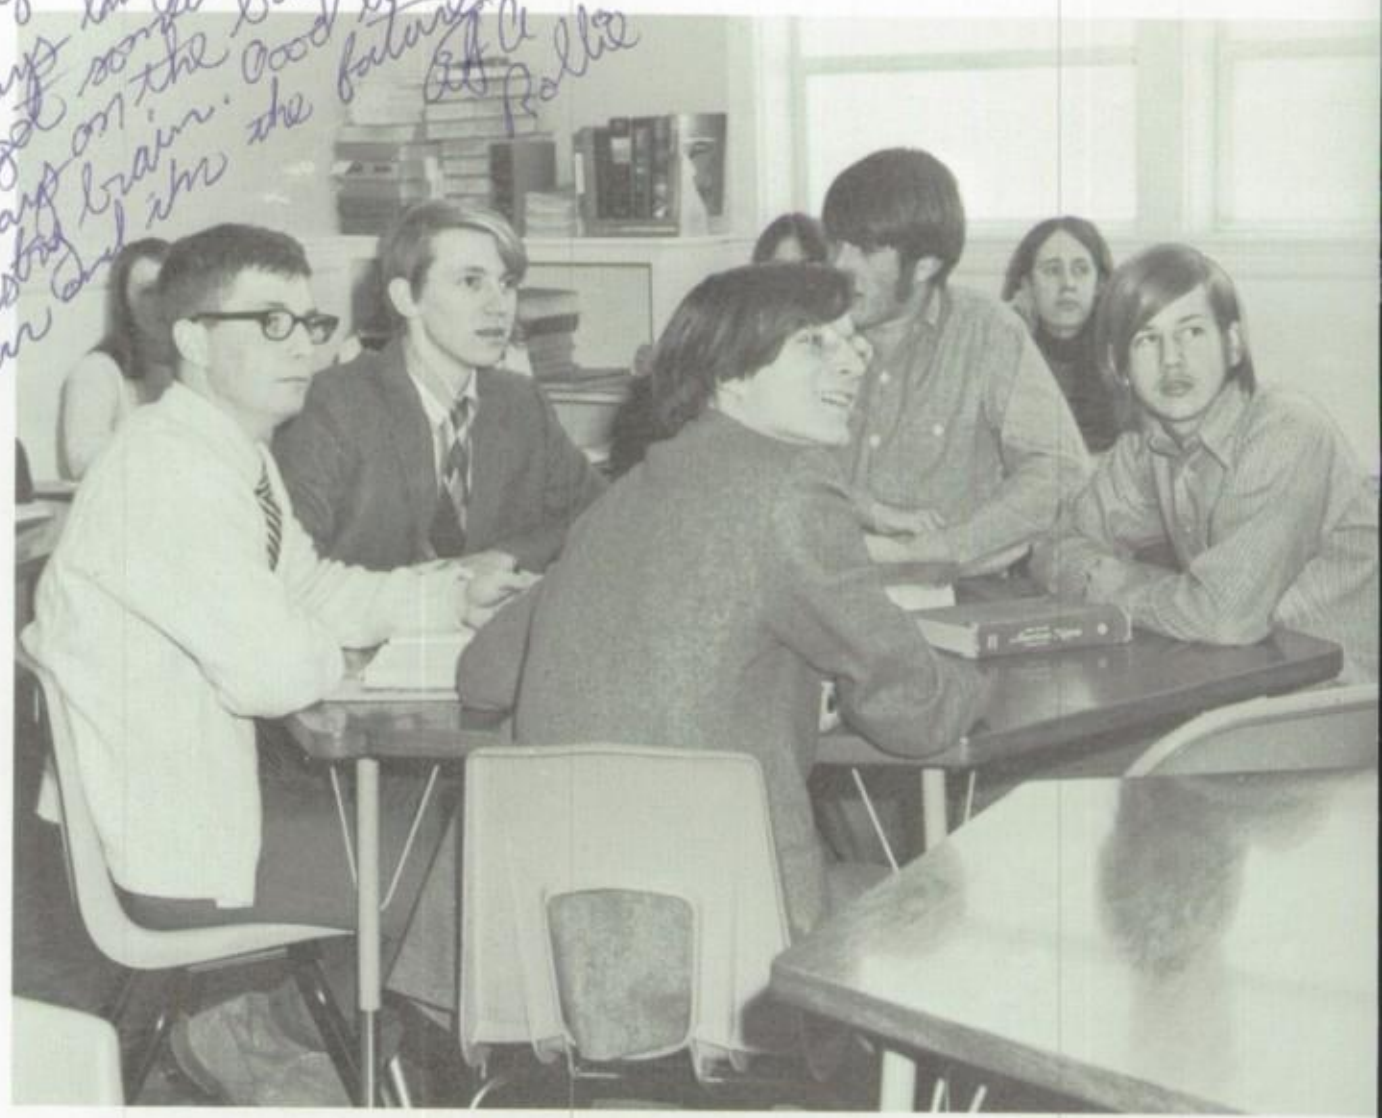


Science is knowledge . . . whether it is social physical, or biological we learn by observation, experimentation, and most importantly by application . . . In biology we learn about life and living substance . . . In chemistry we study matter and the change it undergoes . . . Physics is the science of natural laws and processes . . . Psychology the study of human and animal behavior . . . It reveals the why and how of animal life . . .

Right: Charlie Strong and Stephanie Kelsey study the effects of heat in Chemistry. **Below:** An attentive Psychology class experiments the paths of a maze on Mr. Dexter.

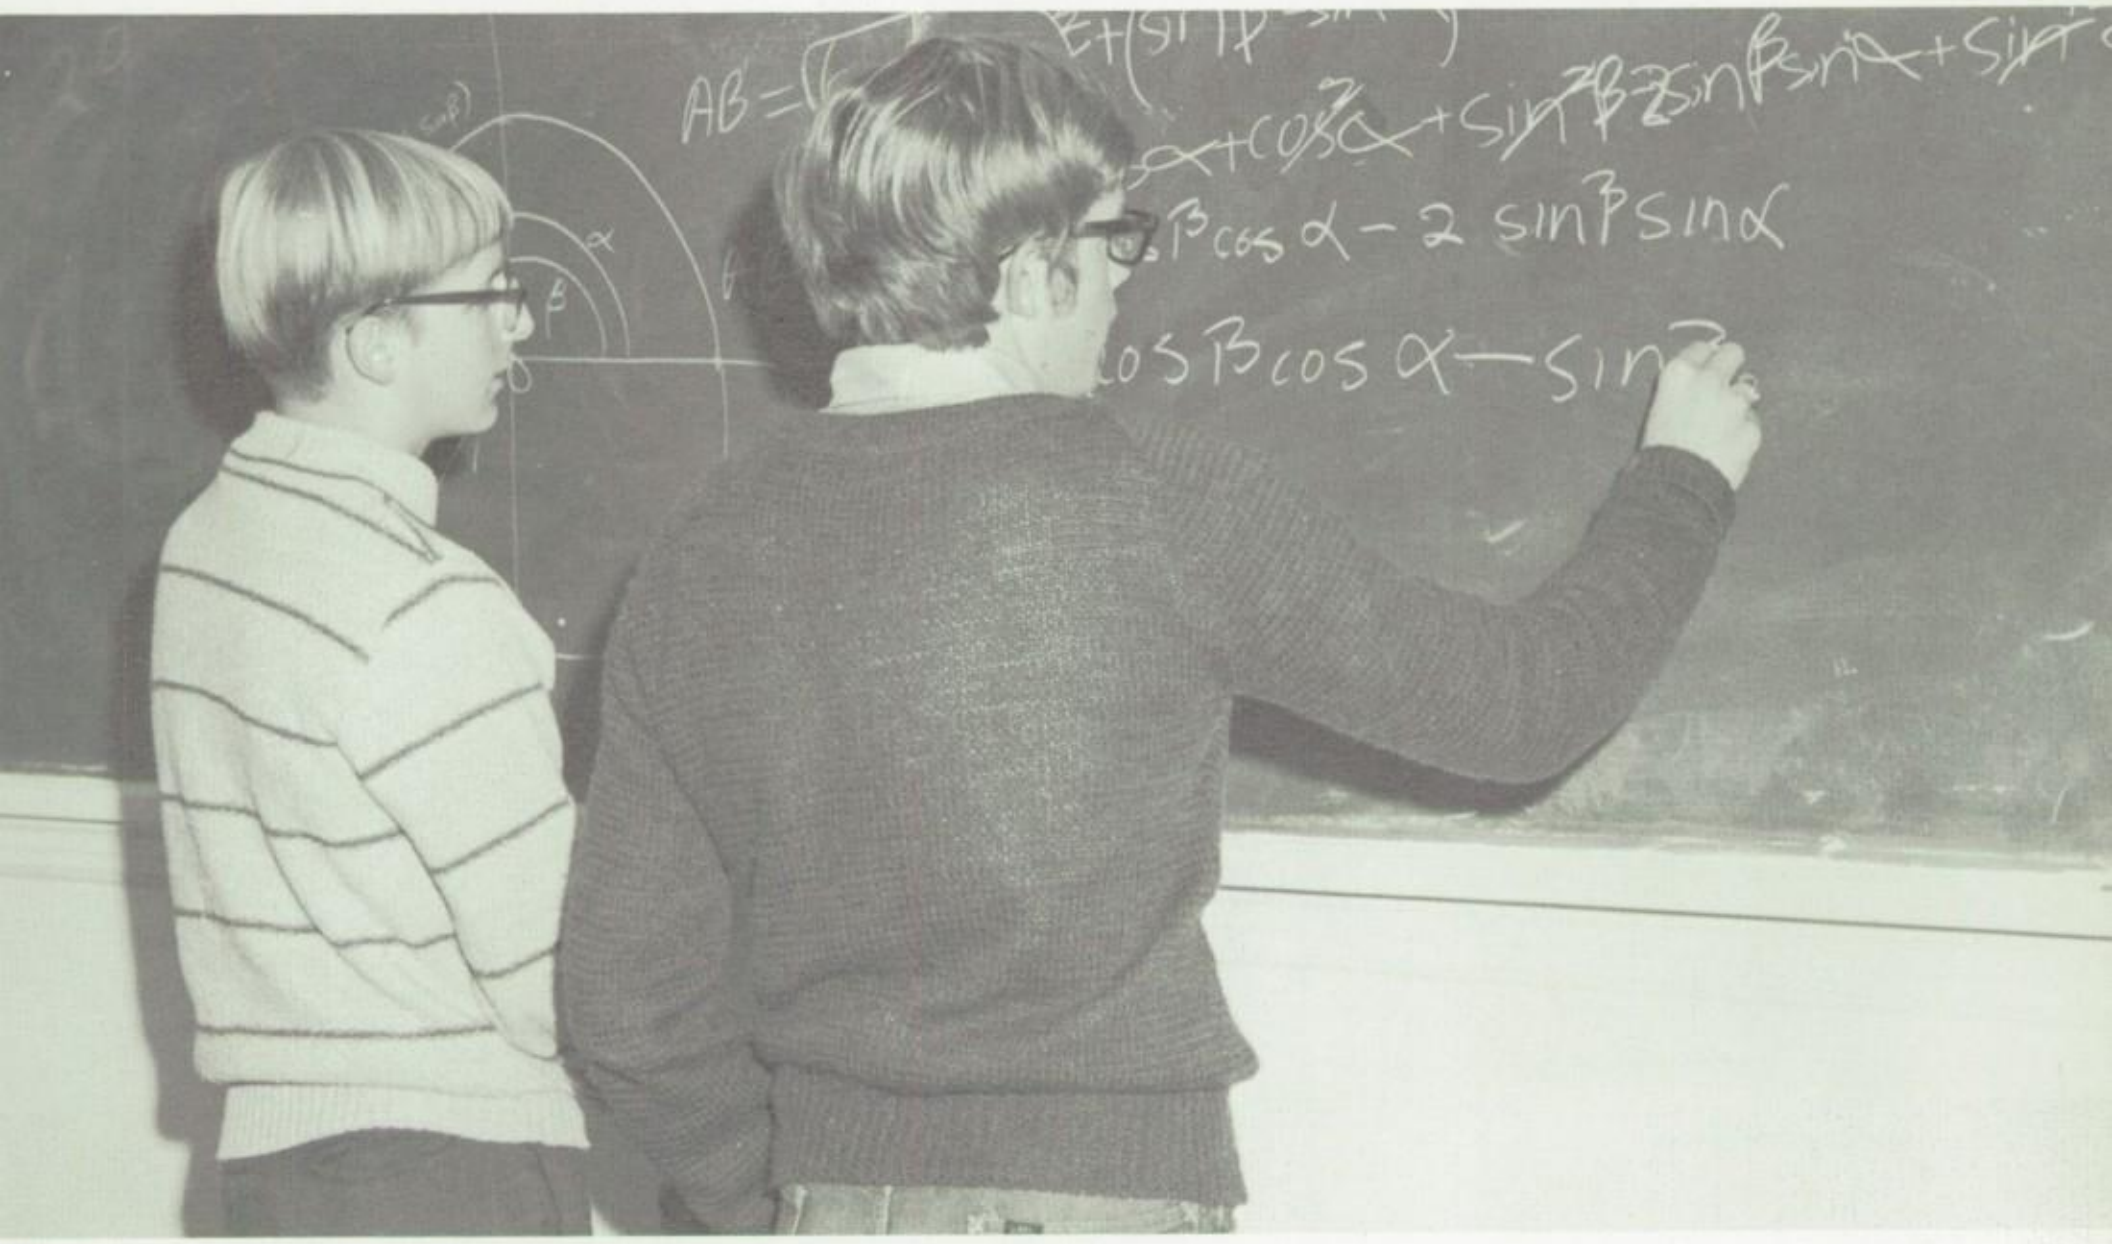
Social Sciences Lend Continuity

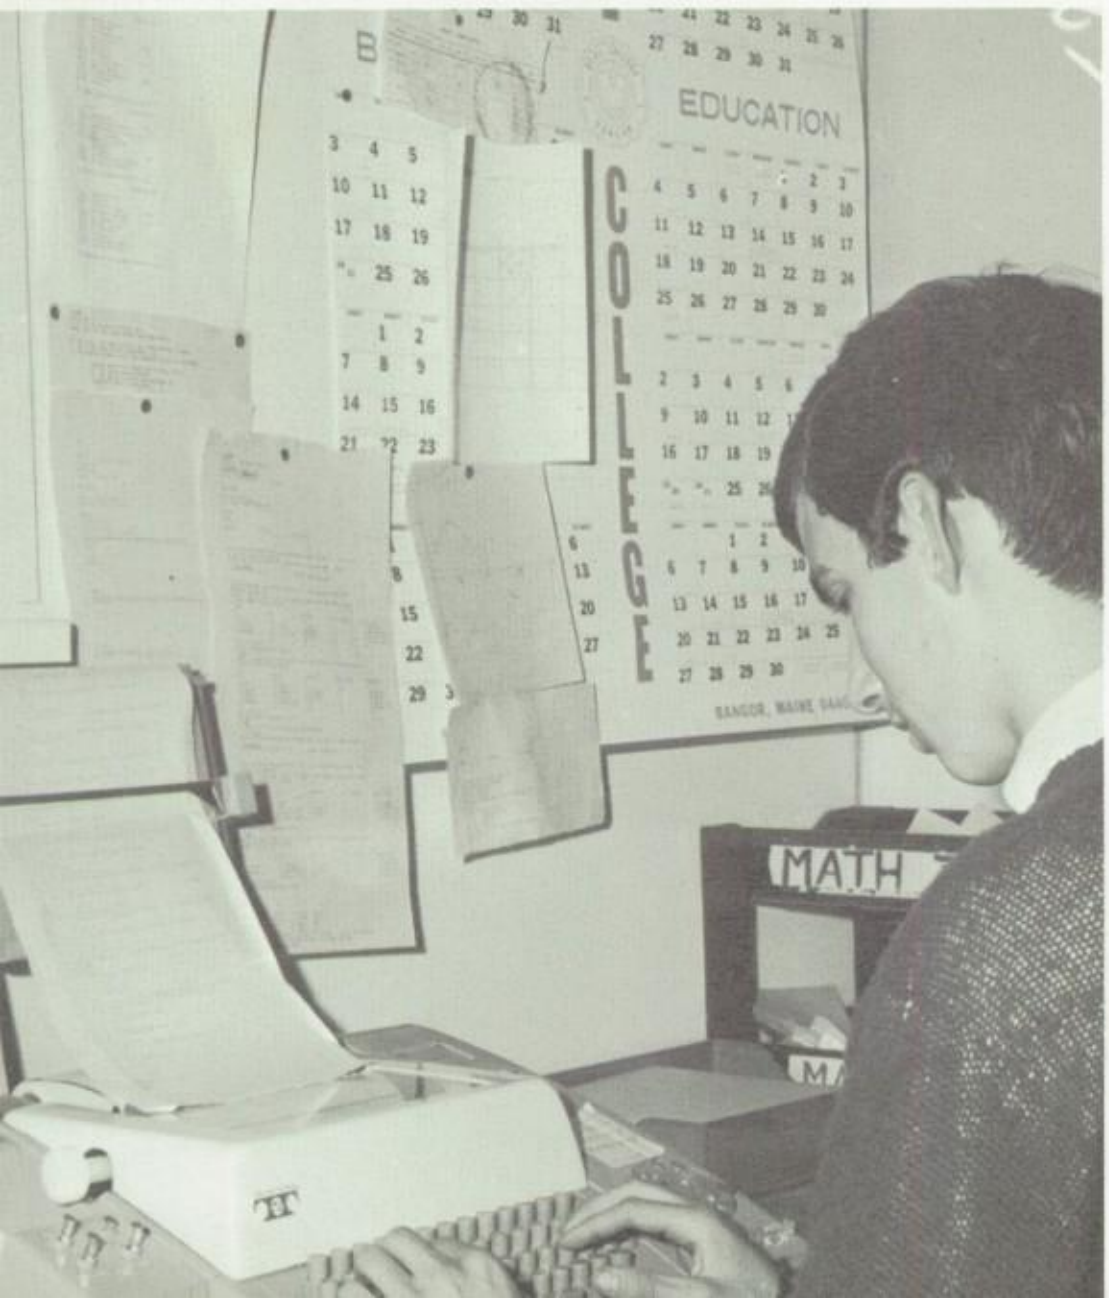
Opening our eyes to the world around us . . . Rehashing the events of the day . . . studying the past history of great nations . . . learning the economic structures of different countries . . . and figuring stock market reports . . . Social Studies covers a variety of fields . . .



Top Right: An attentive table during discussion. **Right:** Don Drisco and Glen Williamson work on stock market reports. **Above:** Karen Olsen and Joane Marketine take a test.

Is $\pi r^2 (y_1 - y_2)^4 - \cos\theta + n^{n-1}$ Really Equal To 1?





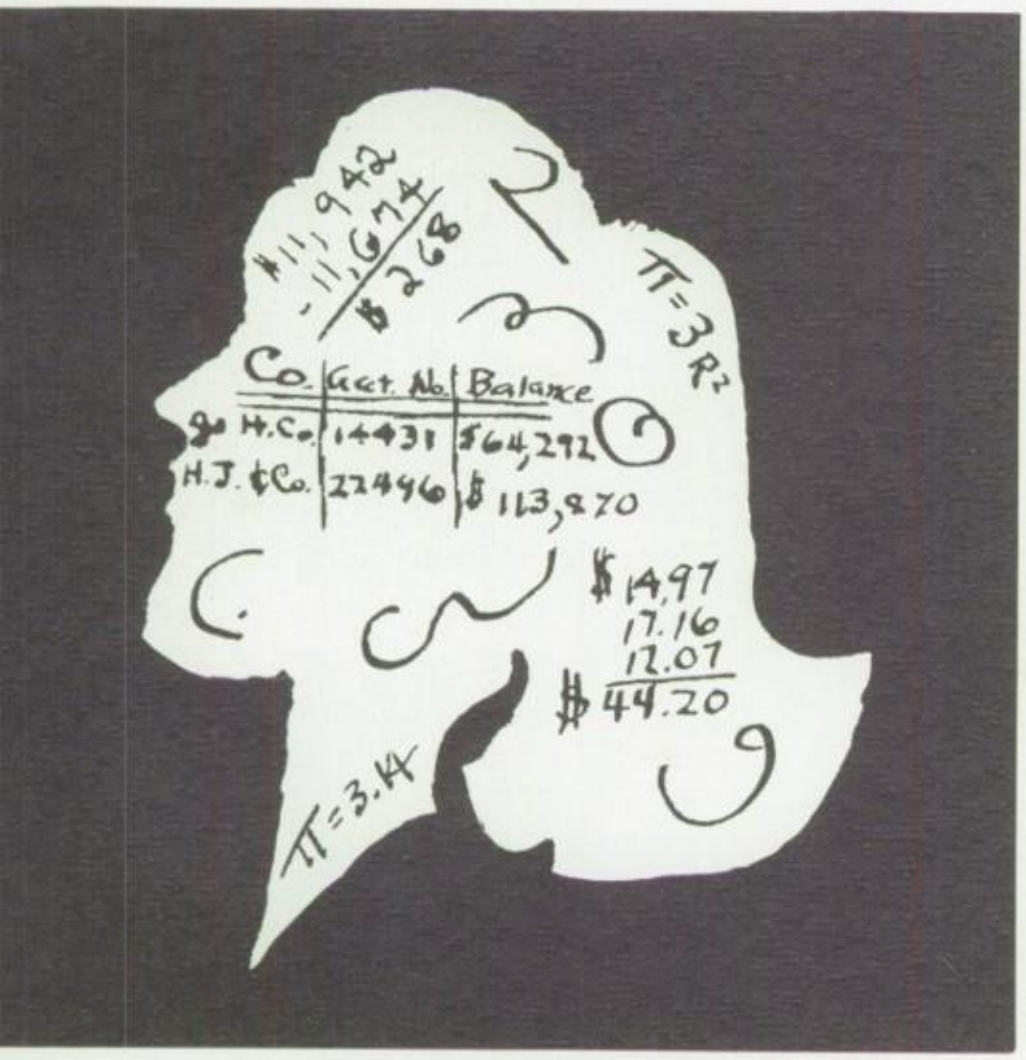
A new facility . . . "The Thinker" becomes a part of the college math courses . . . A new approach to the realm of mathematics . . . When working, a useful addition to the math department . . . Algebra-figuring out why x2-x l=y . . . Geometry — constructing right triangles and circles . . . Trigonometry — learning why $\text{Tan}^2\,\theta = \frac{\cos^2\theta}{\sin^2\theta}$ math a world in itself . . .

Top: Brian Dodge and Charles Rand use trigonometric functions. **Left** Duff Duckett experiments with the pdp 10 Bowdoin computer.

Foreign Languages Broaden Culture

Latin, Espanol, Francais
. . . any or all are a way of life
for the college bound student
. . . scribe puellam in
declination . . . conjugate
andar . . . les temps primitives
de faire . . . verbs,
declensions, subjunctives,
pariphrastics . . . what's
that anyway? . . . the goal
. . . to communicate . . .
in another language.

Below: French class experiments with French bread. **Right:** Lucy Koch and Brenda Lincoln view travel posters.



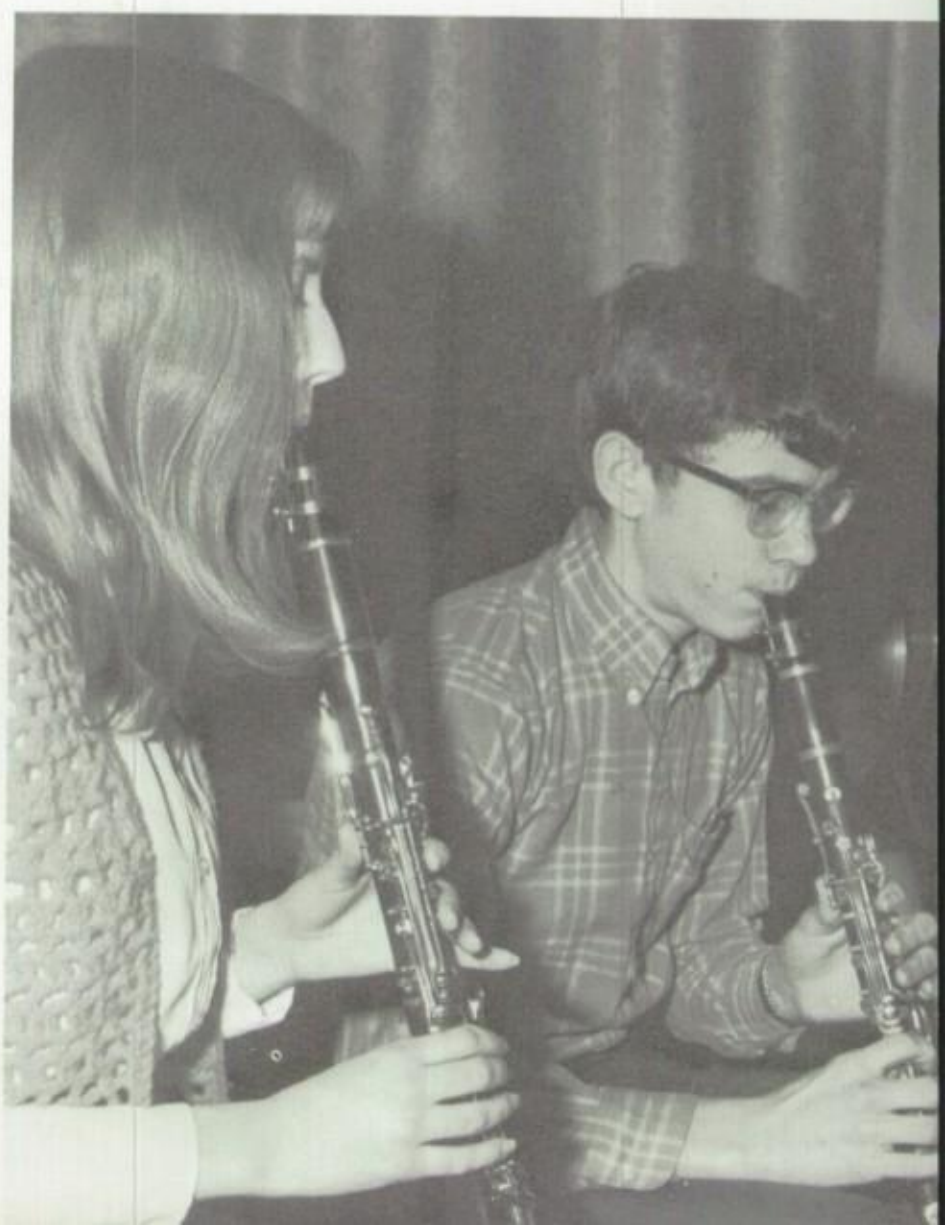
Business Practices Form Skills

Typewriter keys covered because
you steal too many glances
at them . . . forgetting to push in your
chair or to cover your typewriter . . .
this is typing!
. . . learning a language of
dashes and curlicues . . . striving
for 120 words a minute and
sometimes reaching it . . .
studying in a warm atmosphere
surrounded by curtain draped
windows . . . trying to balance your
bookeeping problems . . .
doing your office practice while
visions of your big job
dance in your head . . .

Culture Takes Form

Imaginative minds create the many works produced in the art room . . . The third floor is dedicated to doing your own thing . . . Art History classes teach the knowledge of ancient artists such as Picasso or Michaelangelo . . . Music has finally come alive . . . Lessons are given to students during study halls . . . Clarinets, trombones, and drums . . . The result is a Seacoast Symphonic Band . . .

Top: Jane Duchesneau and Andrea Dumont create art forms. **Right:** Lyndia Carrol and Raymond Cole harmonize with the clarinet.

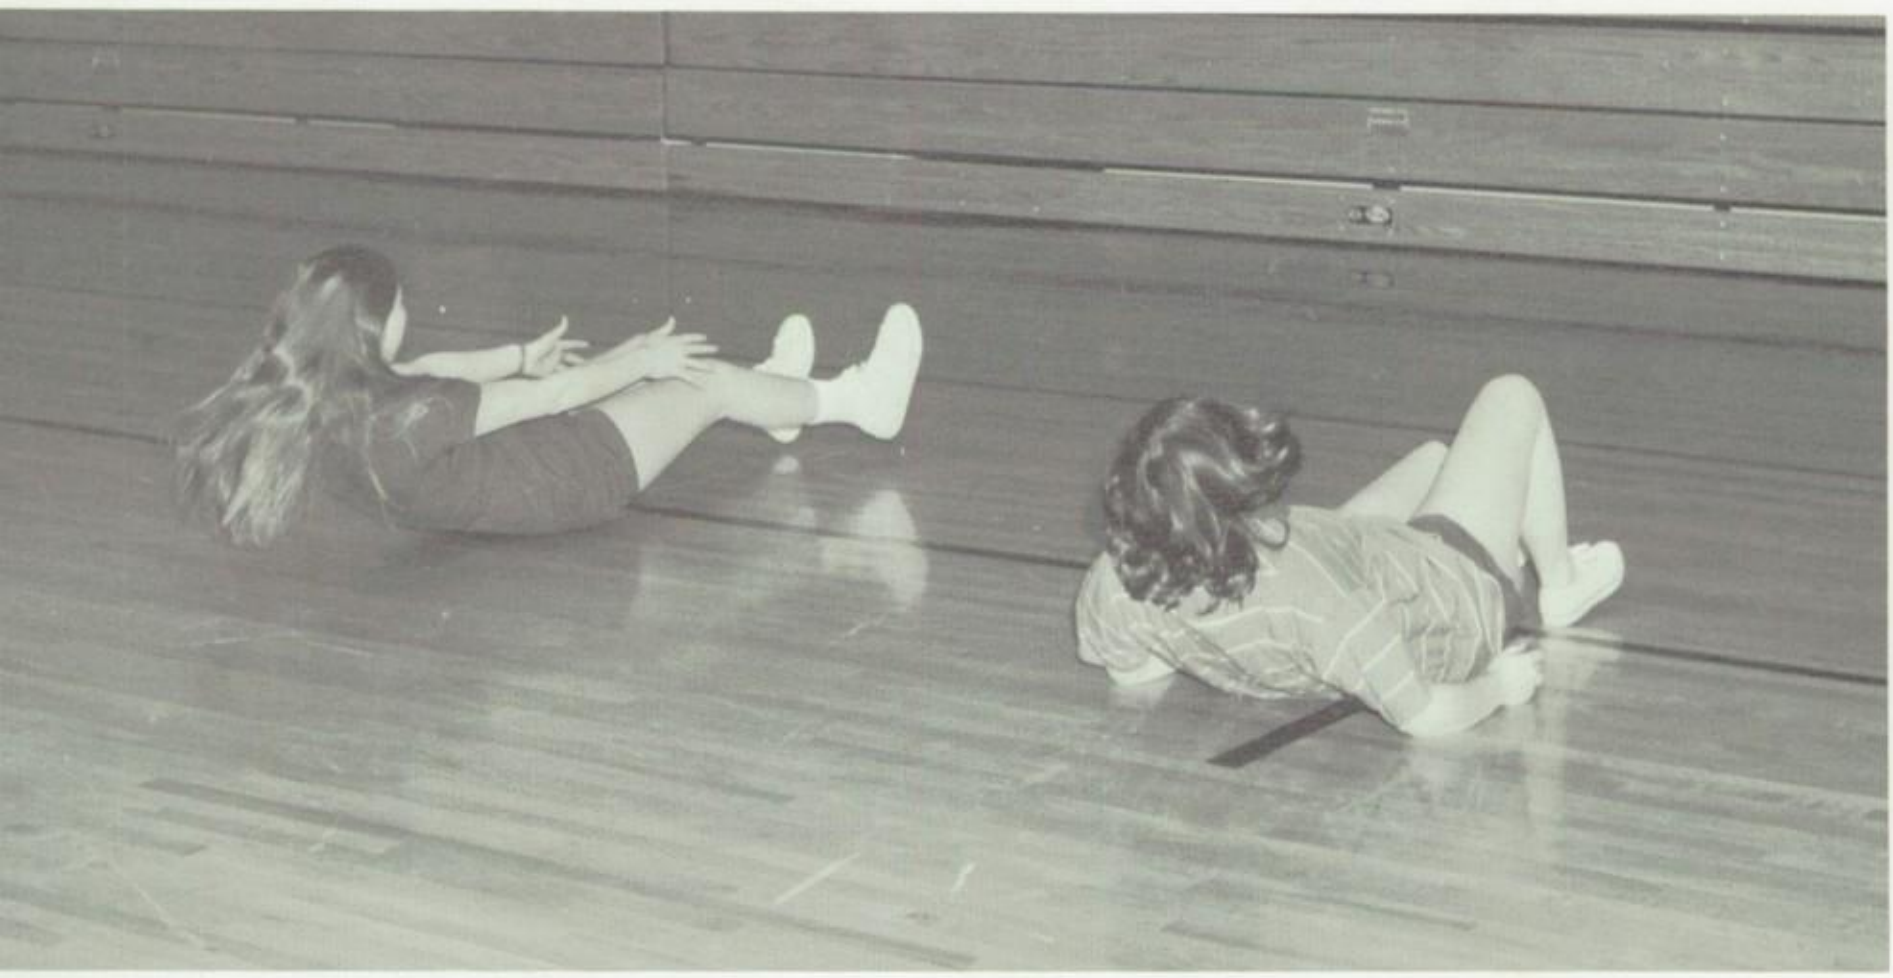


Phys. Ed. Offers Break In Weekly Routine

Well-toned muscles as well as strength are rewards for good performance . . . Enthusiasm leads to good sportmanship as well as valuable experience . . . Hard work is well worth the benefit . . . The National Physical Fitness Awards round out the year . . .

Left: Victor Perreault does seat drop on the trampoline as Alfred Little guards.

Below: Girls do sit-ups in phys. ed. class.



Vocational Arts Teach Trades

Learning the mechanics of a motor . . . greasy hands, frustrated moments . . . Mr. Vaughn standing behind . . . crankcase, carburetor, compression . . . Shop means woodwork . . . sanding, fitting and when Senior year arrives it could mean a hand crafted desk . . . Building model rockets that really fly . . . introductory courses in electronics and metal lathe work . . . starting projects in hope of taking a place in the annual open house . . .

Right: Fundamentals of building a house. **Below right:** Bruce Creamer and Craig Herald work on shop projects. **Below:** Precision and skill are executed on the drill press by Robert Hilton.

NHS Inducts Fourteen Members

Selling hot cocoa and brownies
at some of the
colder soccer games . . .
the week-long annual Book Fair . . .
supporting the yearbook with the
purchase of a page . . . tapping and
induction of new members in March
ceremonies . . . the activities of
this year's National Honor Society . . .

Finland Comes To Maine

It was surprising how I found
Maine similar to Finland
in many ways . . . but the best
that I experienced
was that first . . . to me . . . so big
and unknown country . . .
showed to be
full of different opinions
. . . and ideas . . .
it became an individual!
This has been the year of
feeling great school spirit
. . . the year of endless
snowstorms . . . the year of
friendships and memories . . .
and the year I'll never forget!

Halvan kiittaā jokaista tästa
suurenmoisesta vuodesta;
Kiitos!

Peace,
Mirja

Luci Koch, Lincoln's returnee from Switzerland talks with this year's AFS student Mirja (Mia) Ikaheimo from Fin. land.

we offer Simplicity® the machine for all seasons.

32 attachments give Simplicity tractors year around versatility.

- Vacuum collectors, revitalizers, rollers, carts, snow throwers, blades, tillers, cultivators, harrows, hitches, and weights.
- Mower off . . . attachment on. It takes just seconds and no tools at all.
- Simplicity tractors and attachments. Designed together . . . to go together . . . to work together.

Your life is complicated enough. We offer Simplicity.

H.A.HART, JR.

Dusi
To A great friend
for 13 years now. It
doesn't seem possible that
there is only one more year
to go. We've gone through a lot
during our many years together Girl Scouts I hope
ballet, Rainbow and many other things of
our friendship will continue after
Schooling are up. Kept
good depressed
like of you know who,
And of that bicycle
trip we are going on.
Lots of Luck And
Happiness in the
many more years to
come.
A.F.A.
Susan

Susi:
We sure had fun in
dues. Glad this year, didn't we.
See you next year and have
fun this summer.
Peace
Scott

One more year!
Maybe we'll get to
know each other
better next year. I
hope so. Remember
talking on the bus
from Augusta? That
was really good for
me. It made me think
a lot and it helped.
I hope you stay
as sweet as you are.
Good luck always in
whatever you do!

Keep Smiling!
Eva

Susan, I'm glad that
you've stay. Hope you
have a good time
at Lincoln's with
Dick.
